Love your shoes again

Spring
Summer
2023/24

Love your shoes again:

Orthotic friendly shoes shouldn't be a compromise to your style and personality, now they don't have to be. Our customers can finally become excited about shoe shopping again!

The Perfect Fit:

With shoes produced at multiple widths as well as technology including strap extensions and fillers included with every pair, these will be your best fitting pair of shoes, ever.

Slip on your Sandals:

Other orthotic-friendly shoe companies haven't taken Tropical Summers into account. Revere lets people enjoy sandals again!

Unbelievable Quality:

We source the best quality materials including leather uppers and lining for every pair, and our craftsmanship is second to none.

Brand purpose:

2 out of 3 people wear the wrong sized shoes! This can lead to all sorts of preventable health problems. Revere wants to change that by providing everyone with not just shoes that fit, but shoes that fit **perfectly!**

Why we do it:

Many of our customers haven't been able to wear shoes they actually like for years before they found Revere. Now they're our biggest fans, and for good reason! Can you imagine not being able to wear sandals on a scorching summer's day? That's why we do it.

Brand architecture:

Revere has been a centrepiece of the Global Footcare family of brands since 2013. Global Footcare has a track record of providing the best quality footwear and foot care products. We've learnt everything there is to know along the way and now have implemented that knowledge into manufacturing our brands.

Key messages:

- Perfect Fit
- Quality
- Health
- Comfort

Product offering:

The best fitting, highest quality shoes (Orthotic friendly or other) that you can find.

Our consumer:

The Reverse Cinderella

Our customers have searched far and wide to find a shoe to fit the foot, instead of a foot to fit the shoe. They used to be the bell of the ball, but are now moving to the later stages of their lives and they absolutely hate it! For the majority of them, regular shoe companies are no longer an option (foot conditions, different shaped feet etc.) They used to love their shoes and hate that they no longer have it as an option to express their personality.

Age: 45+

- Fiercely brand loyal
- Live a mile a minute
- Live in suburbs
- Loves a bargain but won't sacrifice quality
